

### 2017 Residential Mill Rate Comparison

# Nampa's mill rate lowest, but is on the rise

Residential mill rate comparison

Villages and smaller towns experience the most fluctuation when setting mill rates for taxes. With low populations and lower tax assessment than bigger centres, a few businesses opening or closing, or grants received, has a huge affect on mill rates. Remember, mill rates do not reflect a total tax bill. They show interesting trends and paradoxes. Nampa has the lowest mill rate, yet the highest percentage increase in three years. Meanwhile, Girouxville and Donnelly lowered their mill rates in the last three years, yet have much higher mill rates than Nampa's. Only five of the 21 selected towns and villages in our survey lowered their mill rates the last three years. Two others had the same mill rate. Overall, 12 of the 21 municipal governments had less than a five per cent increase from 2017-19.

#### 2017 Residential Mill Rate

McLennan	19.0000
Girouxville	16.7030
Falher	11.7800
Berwyn	11.3640
Donnelly	11.0208
<b>AVERAGE</b>	<b>10.9096</b>
Nampa	5.4800

#### 2018 Residential Mill Rate

McLennan	19.0000
Girouxville	16.1230
Falher	12.1550
Berwyn	12.0300
<b>AVERAGE</b>	<b>10.8460</b>
Donnelly	8.7069

#### 2019 Residential Mill Rate

McLennan	19.5000
Girouxville	16.4880
Falher	12.2820
<b>AVERAGE</b>	<b>11.1081</b>
Berwyn	10.1870
Donnelly	9.3627
Nampa	6.3500

## Nampa tops list with highest mill rate increase

#### Population of Selected Village/Towns

#### Residential Mill Rate Decrease/Increase [2017-19]

Village/Town	POP	County/M.D.	+/-	+/-%
